DECISION ON
PETITION

This is a decision on the REQUEST FOR SUSPENSION, filed March 24, 2005, which has been accepted as a petition under 37 C.F.R. 1.103(a). The petition requests a suspension of action, for six (6) months. The suspension of action is requested because Applicants have requested a reissue on U.S. Patent 6,271,278. The Reissue was requested in order to correct an inadvertent failure to indicate that the aforementioned patent is a continuation-in-part of a prior co-pending application.

It is noted that a second suspension for six months was granted in a communication dated September 24, 2004.

Absent a showing of good and sufficient cause for suspension of action, the request for suspension is denied.

The petition is **DENIED.**
